

Senior Portraits

Locations:

Senior Portrait packages includes studio time at my home studio and two additional locations of your choice. I use different locations for Senior Portraits; Spring Grove Park near Jamestown, MI, and Saugatuck Dunes State Park in Saugatuck, MI. Downtown Grand Rapids offers many venues for Senior Portraits from areas along the Grand River, the Sixth St. Bridge, Ah-Nab-Awen Park to old brick buildings that lend themselves as great backdrops.

Your favorite places work best! If it happens to be at your home in the backyard, the woods, a park...a place that is special to you will bring out more of your personality, and will only enhance your images.

Pricing:

Pricing for Senior Portraits starts at \$280. Price includes both studio and location shoots with 80-120 proofs in your choice of a 10"x10" or 10"x15" proof book with a custom front and back cover. Most schools will request a wallet-size print or an electronic copy for use in the school's yearbook.

Prints are priced separately. This way you can pick the size and quantity of prints you want and not be locked into purchasing a package with sizes and quantities that you do not wish to have. **See attached individual price list on next page.**

How to prepare yourself for your photo session.

What to wear: You may bring up to four clothing changes to your portrait session. If you bring too many, you may find choosing from your proofs more difficult. Four outfits will give you a good variety of poses for each clothing combination.

What else can I bring? Hats, pets, uniforms, musical instruments, sunglasses, your car, letter jackets, etc. Whatever makes you unique. You may want to bring a parent or a friend to help you change outfits and watch for hair out of place.

What about hair, makeup and glasses? Bring lens-less frames if possible. Give a haircut or hairdo a couple of days to relax and grow out. Ladies, use slightly more makeup, but don't overdo it.

What not to do: Avoid sunburn. A little color is nice, but stay out of the sun a few days prior to your scheduled photo date. It is tough to take the redness out of a sunburn, even with retouching of photos.
